

# BENT GLASS

## DISHES

We can bend any flat glass into sizes up to 900mm diameter. We have over 300 different coloured opal, cathedral and textured glasses from our sister company Kansa Craft who are specialist decorative glass wholesalers. Please refer to pages 59 and 60 of our 2008 Lighting catalogue for a basic range. Please ask for our Stained Glass catalogue for a more extensive range.

Regular size diameters are;

Diameter (mm)	295	310	342	393	465	480	600	900
Depth (mm)	80	80	75	95	88	92	130	175

We can also add fused frit onto dishes to give a 'sparkly' look.

Etched Dish (GSB)

Opal Dish (315)

White Flashed Opal (WFO) Dish

Fused Frit Dish

## TUNNEL BENDS

We have a large selection of moulds to give different widths and lengths from all the glasses mentioned above.

## CYLINDERS

We have 2 sizes of cylinder 75mm dia x 200mm long and 138mm dia x 280mm long. These are standard as white opal, but can be kiln-fire colour treated, honey amber, pink, light blue, dark blue and red.

## OTHER TECHNIQUES

Drilling, custom bevelling and brilliant cutting, kiln formed textured glass, fused panels, Tiffany and leaded glass. Our decorative glass studio would be pleased to quote for manufacture to your own design or provide interpretive designs for your own ideas.
